

Discovery Meeting: Website Design

Client/Project		Date	
----------------	--	------	--

This worksheet provides a series of conversation starters that will help you scope a client engagement.

1. Do research before the meeting to answer as much as possible.
2. DO NOT ask any questions you may have answered in your research.
3. Be genuinely interested and take notes during the meeting.

Design & Marketing Considerations

- ☐ Is there an existing brand online/offline?
- ☐ Are there existing brand guidelines: logos, color palettes, etc.?
- ☐ Define any existing products/offerings.
- ☐ Discuss the client's industry.
- ☐ Who are the client's primary competitors?
- ☐ Are there companies/brands that the client would like to emulate with their design/marketing of this project?
- ☐ Outline how the project will be launched, including steps to publicize the launch.

Business Objectives

- ☐ Define target goal and list adjectives describing it.
- ☐ What features will need to be included in the website architecture and design to achieve this goal?
- ☐ What legal requirements might there be?

Target Audience

- ☐ Describe the target audience psychographics (fears, hopes, dreams, brand affinities etc.).
- ☐ Describe the target audience demographics (age, income, education, gender etc.).
- ☐ Describe the target users and their behavioral patterns.
- ☐ Know the target user web comfort-level, probable hardware, spending patterns, software, and browser usage.
- ☐ What is the target users comfort level with interactive online features, etc.?

Technical Requirements

- ☐ What front-end development services and languages are necessary?
- ☐ What back-end development services and languages are necessary?
- ☐ What content management system will be used?
- ☐ Where will the site be hosted?
- ☐ What are the accessibility and usability strategies and issues for the site?
- ☐ Outline how the site will be maintained on an ongoing basis.
- ☐ What is the SEO strategy?

Scope & Deliverables

- ☐ How many pages will the website include?
- ☐ What is the expected content on the pages?
- ☐ How many blog/news posts?
- ☐ How many E-commerce SKUs?
- ☐ Who will create the site copy?
- ☐ Where will the site visual assets (photos/icons etc.) come from?
- ☐ What other considerations should be defined in the proposal?
