

Pricing Spectrum

Project Name:	
Client Name:	
Date:	

☐	01	Identify the value of each variable: production cost, market value, and client budget.
☐	02	Organize the variables from highest to lowest.
☐	03	Fill in the gray boxes with potential prices that are in between the variables above and below.
☐	04	Review the twelve pricing scenarios and identify which one fits your current situation.
☐	05	Choose a few prices on the spectrum that you're considering for your final price. Have some inner dialogue about the pros and cons of each price option.
☐	06	Choose your final price and verify your price using the questions below.

Price Verification Questions

☐	PRODUCTION COST: Am I comfortable with the amount of profit I have factored into my price?
☐	MARKET VALUE: Is my price in harmony with what other creative professionals like me are charging for this type of work?
☐	CLIENT BUDGET: Is my price in a range that my client will approve?
