PROJECT TITLE

OBJECTIVES

The client seeks to create a new logo to better represent their brand. A logo is a symbol of an entities values, culture, and brand promise. Although logos, by themselves, do not create brand loyalty, they do create an important touch point with potential customers. Our design team will collaborate with the client to create a logo that embodies their brand and message.

Create a logo that represents the core essence of the brand.

Develop the primary logo into a logo family that can be effectively used across a variety of marketing content.

LOGO DESIGN PHASES

01	02	03	04	05
PHASE 01: RESEARCH & LOGO CONCEPTS	PHASE 02: PRIMARY LOGO DESIGN	PHASE 03: SECONDARY LOGO DESIGNS	PHASE 04: LOGO FAMILY PRODUCTION	OPTIONAL STYLE GUIDE & STATIONERY DESIGN
We will have an in-depth discussion with the client about the target audience for the brand and primary competitors. Following this initial research and discussion of mood boards, we will develop initial logo concepts.	After receiving feedback on the logo concepts, a primary logo design will be created. The primary logo design will dictate the needs of the secondary logos.	Following approval of the primary logo, a family of secondary logos will be created.	After all primary and secondary logos are approved by the client, all logos in the logo family will be exported as individual files for use in marketing collateral.	A style guide is not included in this statement of work, however, a style guide is always recommended by our team to help create visual consistency. Stationery (business card, letterhead, and envelope) is also recommended. If desired, these items can be priced separately.

PHASE 01

RESEARCH & LOGO CONCEPTS

KICKOFF MEETING

In this meeting we will discuss the client’s business, target audience, competitors, industry, and core values. This meeting typically requires one hour of time. Following the meeting, our designers will continue research on all items discussed in an effort to generate initial ideas for the client’s primary logo design.

INCLUDED IN THIS ENGAGEMENT

1 client kickoff meeting (approximately one hour)

PHASE 01

RESEARCH & LOGO CONCEPTS

RESEARCH & MOOD BOARDS

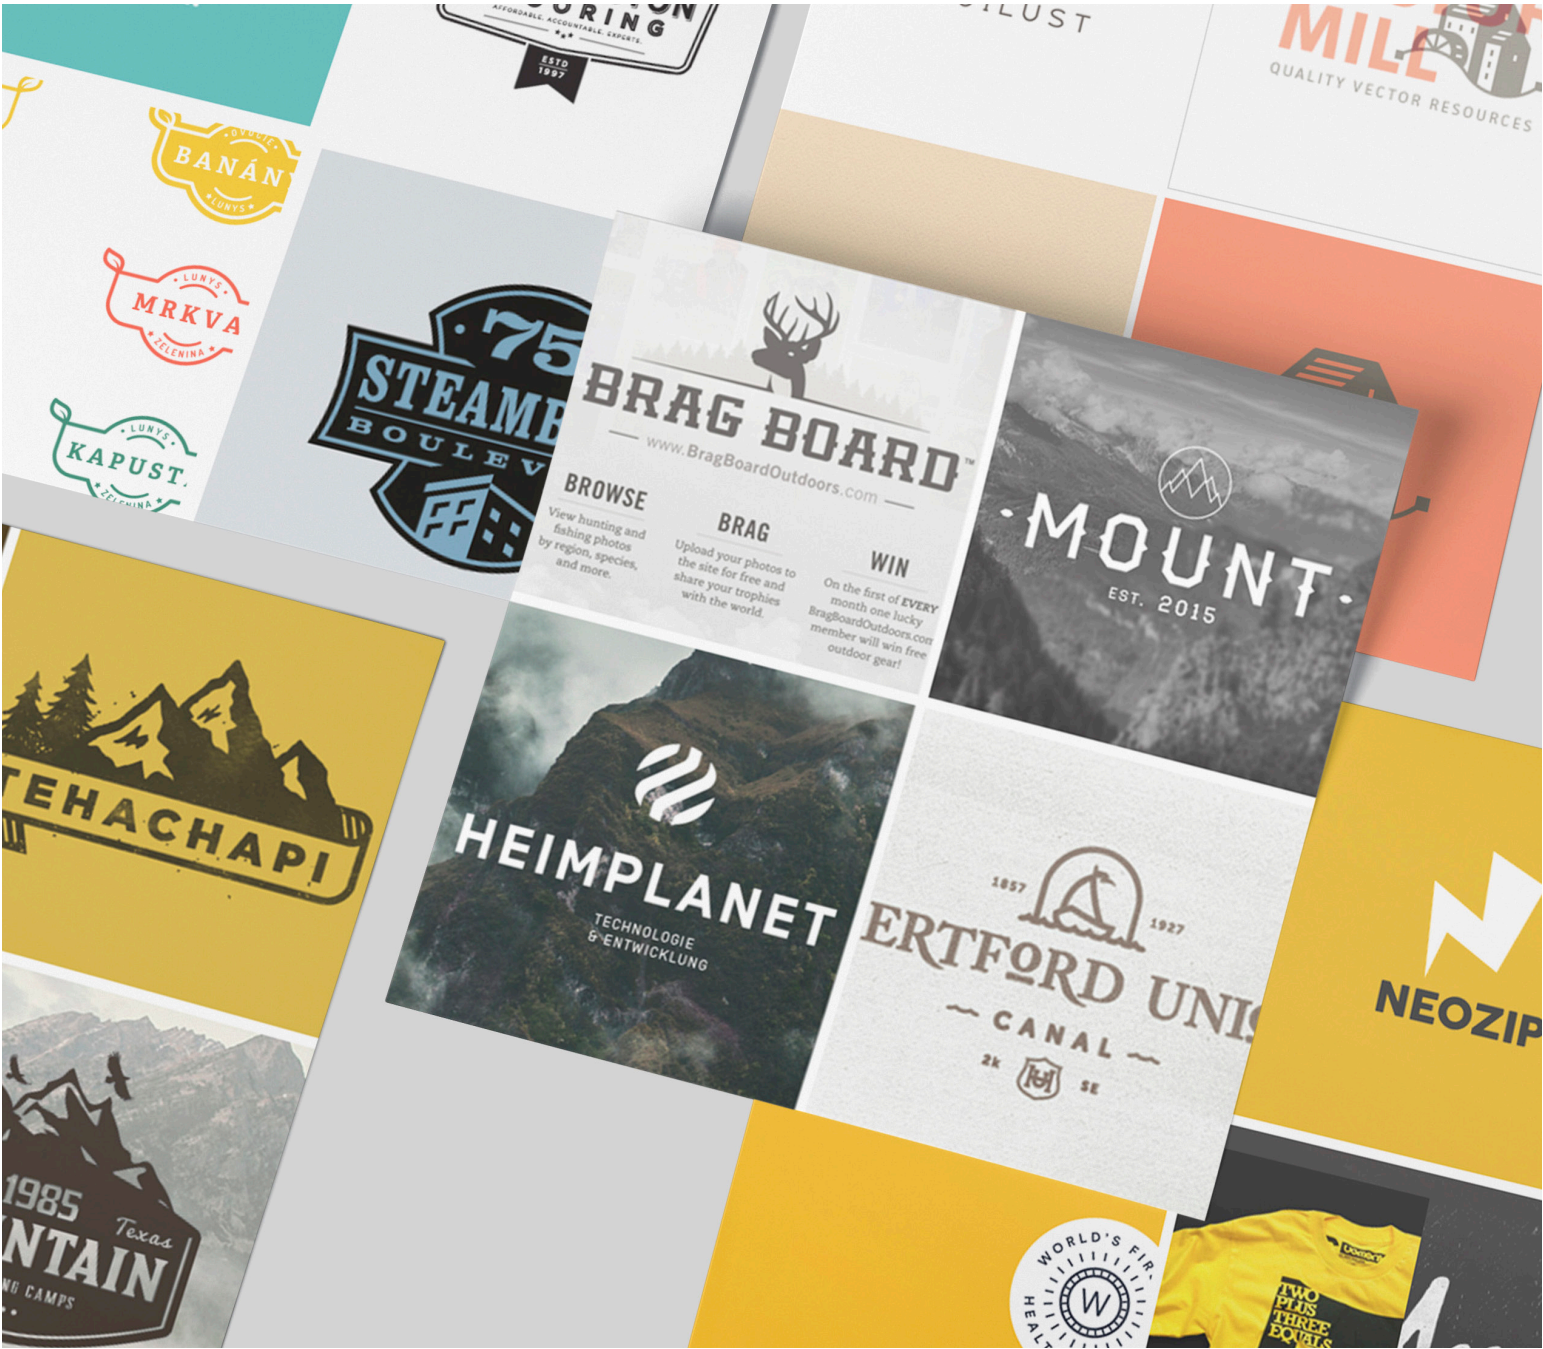

The objective of this phase is to help our agency fully understand the client’s target audience and competitive landscape. We also begin development of logo mood boards and concepts to help guide the design in future phases.

Mood boards include a collection of design elements that provide initial images, concepts, colors and styles proposed for the general “look and feel” of the visual identity.

Round 1 typically includes 3 mood boards delivered to the client in digital format for feedback. We’ll gather client feedback before moving into the actual logo design.

INCLUDED IN THIS ENGAGEMENT

3 mood board designs (2 rounds of feedback)

PHASE 01

RESEARCH & LOGO CONCEPTS
LOGO CONCEPTS

Using inspiration from the approved mood boards, we will create rough logo concepts. These will either be hand-drawn sketches of the logo or rough black and white cocept ideas. The logo concepts will be presented to the client to establish general logo style. Client feedback will be gathered prior to beginning full logo design.

INCLUDED IN THIS ENGAGEMENT

5 initial design concepts (2 rounds of feedback)

PHASE 02

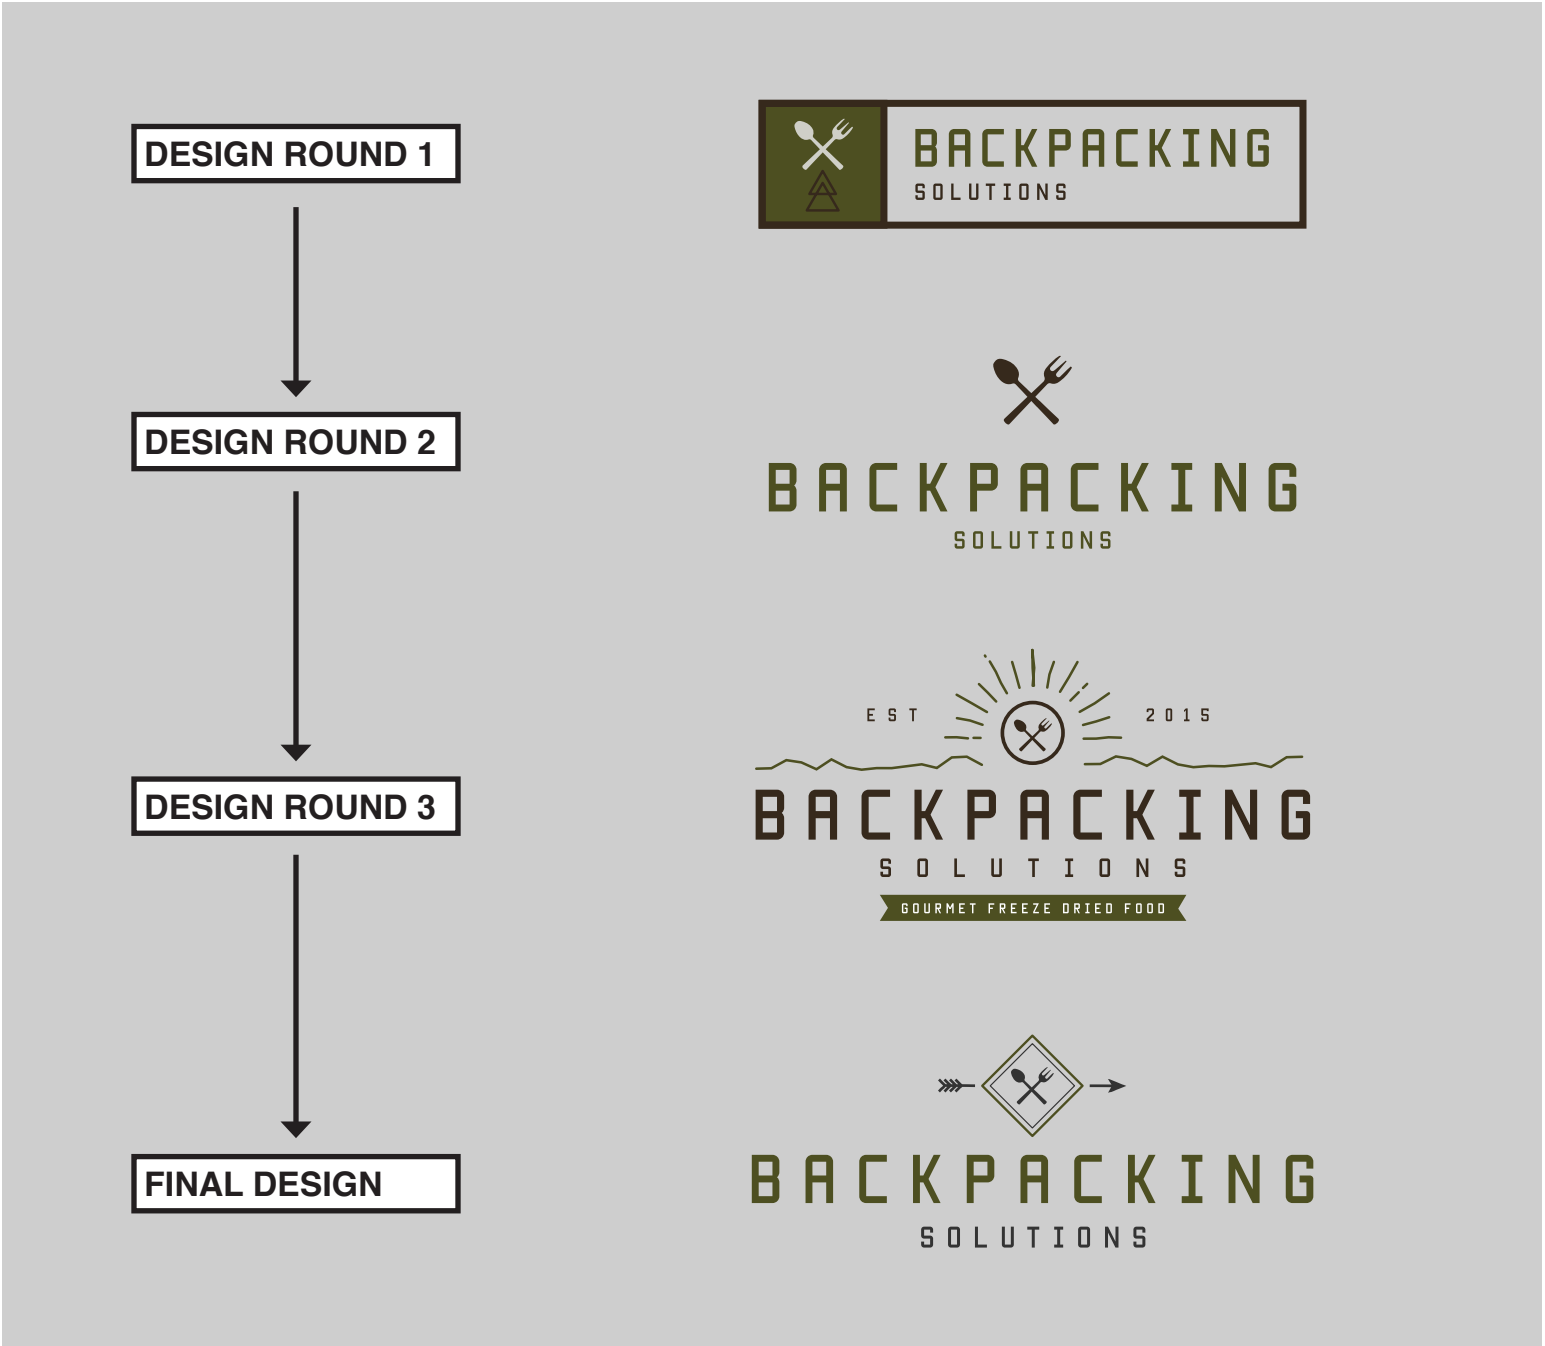

PRIMARY LOGO DESIGN

LOGO DESIGN ROUNDS

Our designers will create multiple logo concepts based on the selected sketch/rough logo concept. We will collaborate with the client to refine the logo until it matches client preferences within the number of rounds defined in the statement of work.

INCLUDED IN THIS ENGAGEMENT
